

AI Usage DISCLOSURE FORM

1. Team Details

Team Name: LIFECANVAS STUDIOS

Project / Product Name: Pulse (Predictive Digital Twin)

Organization / Institution (if any): RV College of Engineering

Submission Date: May 8, 2026

2. AI Usage Declaration

Did your team use any Artificial Intelligence (AI) in developing this project? Yes

The project uses AI both for development (coding assistance) and as a core runtime feature (agent orchestration).

3. Purpose of AI Usage

Idea generation / brainstorming: Defined agent roles (Swarm) and scenario modeling.

Code generation or assistance: Flutter/Dart and TypeScript development assistance.

UI / UX design: Theme tokens, layout optimization, and asset generation.

Content creation: Real-time notification summarization and intervention drafting.

Data analysis: Predictive risk scoring and context normalization.

Testing / debugging: Simulation of notification surges and WebSocket event handling.

Other: Multi-agent system orchestration using the OpenClaw-style pattern.

4. Feature Origin Classification (Please add/delete based on the number of the feature)

1. Feature Name: 5-Agent Neural Swarm (Heartbeat)

Self-Generated/AI-Generated/Both: Both

Description: Developed a custom TypeScript orchestration loop ("Heartbeat") that delegates reasoning to a Llama-3.1-8b swarm (via Groq API). AI performs real-time decision-making, while the logic flow and agent boundaries are self-generated.

2. Feature Name: Predictive Risk Engine & Memory (Neo4j)

Self-Generated/AI-Generated/Both: Both

Description: Integrated Neo4j for historical pattern recognition. AI (Llama-3.1) is used to interpret these patterns alongside live telemetry (GPS, Battery) to predict "failure risks" (e.g., transit delays).

3. Feature Name: Intelligent Notification Surging

Self-Generated/AI-Generated/Both: Both

Description: Built a system to capture high-frequency Android notifications via a Flutter listener. Uses Groq/Llama-3.1 to filter noise and generate natural-language digests and action items.

5. Ethical & Compliance Confirmation

AI usage complies with guidelines and policies. **Yes**

No proprietary or copyrighted data misused. **I Agree**

6. Declaration & Sign-Off

Name of Team Representative: Sachetan

Role: Assistant Developer

Signature: is333

Date: May 8, 2026
